SAFETY DATA SHEET
3’-Sialyl Lewis X

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier
Product name 3’-Sialyl Lewis X
Product number OS04058
Synonyms; trade names NeuNAc-a2-3Gal-b1-4(Fuc-a1-3)GlcNAc
CAS number 98603-84-0

1.2. Relevant identified uses of the substance or mixture and uses advised against
Identified uses Laboratory reagent. Manufacture of substances. Research and development.

1.3. Details of the supplier of the safety data sheet
Supplier Carbosynth Ltd
8&9 Old Station Business Park
Compton
Berkshire
RG20 6NE
UK
+44 1635 578444
+44 1635 579444
info@carbosynth.com

1.4. Emergency telephone number
Emergency telephone +44 7887 998634

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture
Classification (EC 1272/2008)
Physical hazards Not Classified
Health hazards Not Classified
Environmental hazards Not Classified

2.2. Label elements
Hazard statements NC Not Classified

2.3. Other hazards
No data available.

SECTION 3: Composition/information on ingredients

3.1. Substances
Product name 3’-Sialyl Lewis X
CAS number 98603-84-0
3'-Sialyl Lewis X

Chemical formula  \( \text{C}_{31}\text{H}_{52}\text{N}_{2}\text{O}_{23} \)

SECTION 4: First aid measures

4.1. Description of first aid measures

**General information**

Get medical advice/attention if you feel unwell.

**Inhalation**

Remove person to fresh air and keep comfortable for breathing. If breathing stops, provide artificial respiration. When breathing is difficult, properly trained personnel may assist affected person by administering oxygen. Get medical attention if symptoms are severe or persist.

**Ingestion**

Never give anything by mouth to an unconscious person. Rinse mouth thoroughly with water. Give plenty of water to drink. Get medical attention if symptoms are severe or persist.

**Skin contact**

Remove contaminated clothing. Rinse with water. Continue to rinse for at least 15 minutes. Wash contaminated clothing before reuse. Get medical attention if symptoms are severe or persist.

**Eye contact**

Rinse immediately with plenty of water. Continue to rinse for at least 15 minutes. Get medical attention if symptoms are severe or persist.

4.2. Most important symptoms and effects, both acute and delayed

**General information**

See Section 11 for additional information on health hazards.

4.3. Indication of any immediate medical attention and special treatment needed

**Notes for the doctor**

Treat symptomatically.

SECTION 5: Firefighting measures

5.1. Extinguishing media

**Suitable extinguishing media**

Extinguish with alcohol-resistant foam, carbon dioxide, dry powder or water fog. Use fire-extinguishing media suitable for the surrounding fire.

5.2. Special hazards arising from the substance or mixture

**Specific hazards**

None known.

**Hazardous combustion products**

Thermal decomposition or combustion products may include the following substances: Oxides of carbon. Oxides of nitrogen.

5.3. Advice for firefighters

**Special protective equipment for firefighters**

Wear positive-pressure self-contained breathing apparatus (SCBA) and appropriate protective clothing. Firefighter's clothing conforming to European standard EN469 (including helmets, protective boots and gloves) will provide a basic level of protection for chemical incidents. Use protective equipment appropriate for surrounding materials.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

**Personal precautions**

Wear protective clothing as described in Section 8 of this safety data sheet. No action shall be taken without appropriate training or involving any personal risk. Do not touch or walk into spilled material. Avoid inhalation of dust and vapours. Provide adequate ventilation. Keep unnecessary and unprotected personnel away from the spillage.

6.2. Environmental precautions

**Environmental precautions**

Avoid discharge into drains or watercourses or onto the ground.

6.3. Methods and material for containment and cleaning up
Methods for cleaning up
Wear protective clothing as described in Section 8 of this safety data sheet. Collect powder using special dust vacuum cleaner with particle filter or carefully sweep into suitable waste disposal containers and seal securely. Clear up spills immediately and dispose of waste safely. Flush contaminated area with plenty of water. Wash thoroughly after dealing with a spillage. For waste disposal, see Section 13.

6.4. Reference to other sections
For personal protection, see Section 8. See Section 11 for additional information on health hazards. See Section 12 for additional information on ecological hazards. For waste disposal, see Section 13.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Usage precautions
Wear protective clothing as described in Section 8 of this safety data sheet. Wash hands thoroughly after handling. Provide adequate ventilation. Avoid generation and spreading of dust. Avoid contact with skin and eyes. Avoid inhalation of dust and vapours.

7.2. Conditions for safe storage, including any incompatibilities
Storage precautions
Keep container tightly closed. Store in a cool and well-ventilated place. Store at temperatures not exceeding -20°C.

7.3. Specific end use(s)
Specific end use(s)
The identified uses for this product are detailed in Section 1.2.

SECTION 8: Exposure Controls/personal protection

8.1. Control parameters
Occupational exposure limits
No exposure limits known for ingredient(s).

8.2. Exposure controls
Appropriate engineering controls
Provide adequate ventilation. Observe any occupational exposure limits for the product or ingredients.

Eye/face protection
Unless the assessment indicates a higher degree of protection is required, the following protection should be worn: Tight-fitting safety glasses. Personal protective equipment for eye and face protection should comply with European Standard EN166.

Hand protection
Wear protective gloves. To protect hands from chemicals, gloves should comply with European Standard EN374.

Other skin and body protection
Wear appropriate clothing to prevent repeated or prolonged skin contact.

Respiratory protection
Respiratory protection complying with an approved standard should be worn if a risk assessment indicates inhalation of contaminants is possible. Ensure all respiratory protective equipment is suitable for its intended use and is ‘CE’-marked. Particulate filter, type P1. Particulate filters should comply with European Standard EN143. Full face mask respirators with replaceable filter cartridges should comply with European Standard EN136. Half mask and quarter mask respirators with replaceable filter cartridges should comply with European Standard EN140.

Environmental exposure controls
Keep container tightly sealed when not in use.

SECTION 9: Physical and Chemical Properties
3'-Sialyl Lewis X

9.1. Information on basic physical and chemical properties

- **Appearance**: Solid.
- **Colour**: White.
- **Odour**: No data available.
- **Odour threshold**: No data available.
- **pH**: No data available.
- **Melting point**: No data available.
- **Initial boiling point and range**: No data available.
- **Flash point**: No data available.
- **Evaporation rate**: No data available.
- **Flammability (solid, gas)**: No data available.
- **Upper/lower flammability or explosive limits**: No data available.
- **Vapour pressure**: No data available.
- **Vapour density**: No data available.
- **Relative density**: No data available.
- **Solubility(ies)**: No data available.
- **Partition coefficient**: No data available.
- **Auto-ignition temperature**: No data available.
- **Decomposition Temperature**: No data available.
- **Viscosity**: No data available.
- **Explosive properties**: No data available.
- **Oxidising properties**: No data available.

9.2. Other information

- **Molecular weight**: 820.74

SECTION 10: Stability and reactivity

10.1. Reactivity

- **Reactivity**: No data available.

10.2. Chemical stability

- **Stability**: Stable under the prescribed storage conditions.

10.3. Possibility of hazardous reactions

- **Possibility of hazardous reactions**: No data available.

10.4. Conditions to avoid

- **Conditions to avoid**: Moisture.

10.5. Incompatible materials

- **Materials to avoid**: Strong oxidising agents.
# 3'-Sialyl Lewis X

## 10.6. Hazardous decomposition products

## SECTION 11: Toxicological information

### 11.1. Information on toxicological effects

### Specific target organ toxicity - single exposure

| STOT - single exposure | Not classified as a specific target organ toxicant after a single exposure. |

### Specific target organ toxicity - repeated exposure

| STOT - repeated exposure | Not classified as a specific target organ toxicant after repeated exposure. |

### Aspiration hazard

| Aspiration hazard | Not relevant. Solid. |

### General information

No specific health hazards known. Dust may irritate the eyes and the respiratory system. The severity of the symptoms described will vary dependent on the concentration and the length of exposure.

3’-Sialyl Lewis X

**SECTION 12: Ecological Information**

**Ecotoxicity** Not regarded as dangerous for the environment. However, large or frequent spills may have hazardous effects on the environment.

12.1. **Toxicity**

Toxicity Based on available data the classification criteria are not met.

12.2. **Persistence and degradability**

Persistence and degradability The degradability of the product is not known.

12.3. **Bioaccumulative potential**

Bioaccumulative potential No data available on bioaccumulation.

Partition coefficient No data available.

12.4. **Mobility in soil**

Mobility No data available.

12.5. **Results of PBT and vPvB assessment**

Results of PBT and vPvB assessment No data available.

12.6. **Other adverse effects**

Other adverse effects None known.

**SECTION 13: Disposal considerations**

13.1. **Waste treatment methods**

**General information** Dispose of waste to licensed waste disposal site in accordance with the requirements of the local Waste Disposal Authority. This material and its container must be disposed of in a safe way. When handling waste, the safety precautions applying to handling of the product should be considered.

**SECTION 14: Transport information**

**General** The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID).

14.1. **UN number**

Not applicable.

14.2. **UN proper shipping name**

Not applicable.

14.3. **Transport hazard class(es)**

No transport warning sign required.

14.4. **Packing group**

Not applicable.

14.5. **Environmental hazards**

Environmentally hazardous substance/marine pollutant No.

14.6. **Special precautions for user**
3’-Sialyl Lewis X

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL and the IBC Code

Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code
Not applicable.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

National regulations
- Health and Safety at Work etc. Act 1974 (as amended).
- The Carriage of Dangerous Goods and Use of Transportable Pressure Equipment Regulations 2009 (SI 2009 No. 1348) (as amended) ["CDG 2009"].
- EH40/2005 Workplace exposure limits.

EU legislation

15.2. Chemical safety assessment

No chemical safety assessment has been carried out.

SECTION 16: Other information

Abbreviations and acronyms used in the safety data sheet
- ADR: European Agreement concerning the International Carriage of Dangerous Goods by Road.
- ADN: European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways.
- RID: European Agreement concerning the International Carriage of Dangerous Goods by Rail.
- IATA: International Air Transport Association.
- CAS: Chemical Abstracts Service.
- ATE: Acute Toxicity Estimate.
- LC₅₀: Lethal Concentration to 50 % of a test population.
- LD₅₀: Lethal Dose to 50% of a test population (Median Lethal Dose).
- EC₅₀: 50% of maximal Effective Concentration.
- PBT: Persistent, Bioaccumulative and Toxic substance.
- vPvB: Very Persistent and Very Bioaccumulative.

Training advice
Only trained personnel should use this material.
